

STERAMIST®

POWERED BY BINARY IONIZATION TECHNOLOGY®

DISINFECTION & DECONTAMINATION

BE PREPARED FOR YOUR NEXT JOB WITH STERAMIST® BIT™ SOLUTION

WITH DISINFECTION ON EVERYONE'S MIND, IT PAYS TO EXPECT THE UNEXPECTED.

Ensure that you're ready for your next customer by having the right materials on hand to do the job. With superior material compatibility when compared to leading competitors, a single bottle of BIT™ Solution can cover any job you may have - from the smallest, most delicate healthcare machines to the largest storage warehouses - with no wiping or rinsing required.

GO FARTHER WITH LESS

A single gallon of BIT™ Solution can treat spaces up to*:

Over 500 ft² (SteraPak/BIT-100)
4,000 ft² (Surface Unit/BIT-400)
7,000 ft³ (Environment System/BIT-400)

UNIVERSAL SOLUTION

Each SteraMist product utilizes the same BIT™ Solution blend for a wide array of applications.

PROPRIETARY BLEND

All SteraMist products exclusively use low-percentage **7.8% Hydrogen Peroxide** as a sole active ingredient.

*Depending upon technician application technique
