

# Contec Quiltec I Flat Mop Head

**Single use two-ply 100% polyester flat mop head**

Contec Quiltec I Flat Mop Heads are manufactured from 100% 2-ply polyester around a polyester / rayon core so are ideal for even the highest grade of cleanroom as they generate very small numbers of particle and fibres.

Quiltec I Flat Mop Heads have been specifically designed for use with Contec's Mop Saturation Systems. With high absorbency the mops are suitable for single use saturation, giving a surface coverage up to approximately 20 sqm.

The mop heads are designed for hands-free fitting to the mop head frame when used with an "A frame" applicator. The heads are compatible with the QuickTask hinged mop frames 2749 and 2740, and the Contec Hands Free mop frame 2901.

The Quiltec I Flat Mop Heads are suitable for the application of disinfectants and removal of light soil, residues and biofilms. Designed for single use, the mop heads are compatible with a wide range of chemicals and disinfectants.

MHQT0150 is gamma irradiated at no less than 25kGy, with certificates of conformity and irradiation available for every batch. Five mops are double bagged for easy transfer into the cleanroom environment.

FEATURES	BENEFITS
100% 2-ply polyester covered mop heads	<ul style="list-style-type: none"> <li>• Low levels of particle and fibres</li> <li>• Compatible with a wide range of disinfectants and detergents</li> <li>• Excellent surface contact</li> </ul>
