 **FREUDENBERG**

The essence of
70 years forward
thinking:

**NEXT
LEVEL
CLEAN**

Everything we do grows from a constant dialogue with our customers. This made us a world leader in innovative cleaning solutions for controlled environments. We provide a complete contamination control concept including planning, trial programs, training and after sales care.

We believe in making people work smarter, not harder. That is why we focus on ergonomics, performance and design at every stage of the R&D phase, while using unique and patented technologies. All that to help you realise a higher standard, a **NEXT LEVEL CLEAN**, sustainably!

Listen, learn, lead worldwide.

Vileda Professional CE is a world leader in the manufacturing of contamination control products for critical cleanroom environments. We commit ourselves to quality and excellence, every Vileda Professional CE system offers the highest cleaning standards and minimizes risk to your core business. We work with you and your unique environment to maximize production output and ensure a next level clean in every aspect of your cleaning regime. Our global pharmaceutical partners are benefitting from our unique insight based, solution driven approach to the science of clean as we believe in a simple principle: The more we know about your facility, the better you clean.

Our innovative mechanical cleaning solutions and systems are specifically designed for the stringent demands of cleanroom and critical environment decontamination. Vileda Professional pioneered the development and launch of microfibre, now a complete gamechanger in mechanical cleaning technology. Our quality microfibre and more recently our unique 'micronfibre' base material delivers improved cleaning efficacy results in your mechanical cleaning and disinfection contamination control process.

Our systems ensure your cleaning technicians clean smarter and faster, not harder achieving improved cleaning efficacy benchmarks.

With more than 70 years experience in mechanical cleaning, we work with our customers to develop rigorous contamination control and prevention processes and protocols. We understand with unique insight gained from our end users the constant demands our highly regulated industry requires.

Our pharmaceutical cleaning systems and solutions are available across the globe. Partner with us and we will help you realise a higher standard and classification of 'clean' for your unique facility. We invite you to work with our contamination control specialists to find the right system that best fits your individual needs.

Continued innovation and an insight-led approach drives our specific industry expertise, we understand the 'science of clean'. This has been perfected over many years of experience listening to our customers and understanding their pain points. With regulatory compliance as a mindset and at the forefront of our R&D processes, our mechanical cleaning systems and solutions are validated and certified by independent test institutes in line with IEST, ISO regulations and GMP standards.

A partnership with us will ensure together we will take your facilities mechanical cleaning contamination control processes and protocols to the next level.

Contamination Control Prevention & Validation

Higher focus on ...

- Cleaning protocol set up, validation, compliance and SOP excellence.
- Enhanced cleaning performance v's standard cleaning products and methods.
- Helping you achieve stringent control over both viable and non-viable particles.
- Quality and efficacy mindset - (EM Data).
- Versatile, adaptive systems and solutions for critical contamination control environments.
- Overall risk mitigation with a focus on increased yield and production output.

Convenience

Maximizing ...

- Faster more efficient cleaning, zero compromises on cleaning efficacy.
- Ergonomics, system and solutions design - one system, total facility clean capability.
- Ease-of-use, intuitive product design features and benefits.
- Overall cost down approach, spend to save with our systems and solutions

Sustainability

Socially responsible ...

- Products made with recycled & recyclable materials. Circular economy mindset when developing our systems and solutions.
- High durability and launderability product features delivering longevity of use. Avoid the 'buy cheap, buy twice' scenario.
- Optimised cost in use model focuses down on opportunity cost reductions. Utilities use reductions and waste reduction management are high on our sustainability KPI's.
- Footprint, handprint thinking to a lower carbon footprint.

Training & Services

Partnering with ...

- Standardised best practices, together we deliver a Next Level Clean, sustainably!
- SOP development excellence, optimum mechanical cleaning performance - 24/7/365 days a year.
- Regular and continuous training programs and certification from our contamination control specialists.
- Pre-audit support capabilities in conjunction with our contamination control specialists.

Three solutions, one commitment: Next Level Clean

Vileda Professional CE offers innovative mechanical cleaning solutions that will enhance your contamination control cleaning and disinfecting process, as well as lower your overall costs.

EvoControl™ 400 Sterile

Maximize contamination control! This wiper meets the highest demands of cleanroom wiping with unique Evolon technology. This provides revolutionary cleaning results that deliver strict contamination control protocols the pharmaceutical industry demands.

CE ATF Tools

For limited access surfaces and difficult to reach equipment cleaning.

CE Duo™ pre-prepared mopping system

The less time you spend on cleanroom cleaning, the more efficient your core business running. Our concept is the perfect answer to meet the high demands for effective cleaning and disinfection of cleanrooms & controlled environments. It is faster, easier and twice as efficient as traditional methods.

Unrivalled contamination control, biocontamination pickup and residue removal performance

Vileda Professional – a part of the Freudenberg Group

Vileda Professional provides innovative cleaning solutions for professional users in various application areas, such as General Building, Healthcare, HoReCa and Controlled Environment. With sales offices in all major European countries, in North America and Asia – and with a wide net of representatives – we are well located around the world. Vileda Professional belongs to the Freudenberg Group – a diversified, family-run global company, headquartered in Germany.
